

RADIGROW

BIOSTIMULANTS

Category: Biostimulants

Formulation: Soluble Liquid (SL)

Seed Treatment Application

RADIGROW is a biostimulant specifically that acts on the root system, favoring the vegetative development.

RADIGROW is a liquid biostimulant, which contains a Boron, mixture of amino acids and growth stimulants that activate the biochemistry of the plant, stimulating their growth and maturation. It helps in the resistance mechanisms of the plant under adverse weather conditions.
